- Class F Insulation
- Thermal Overload Protection
- 1 Year Warranty

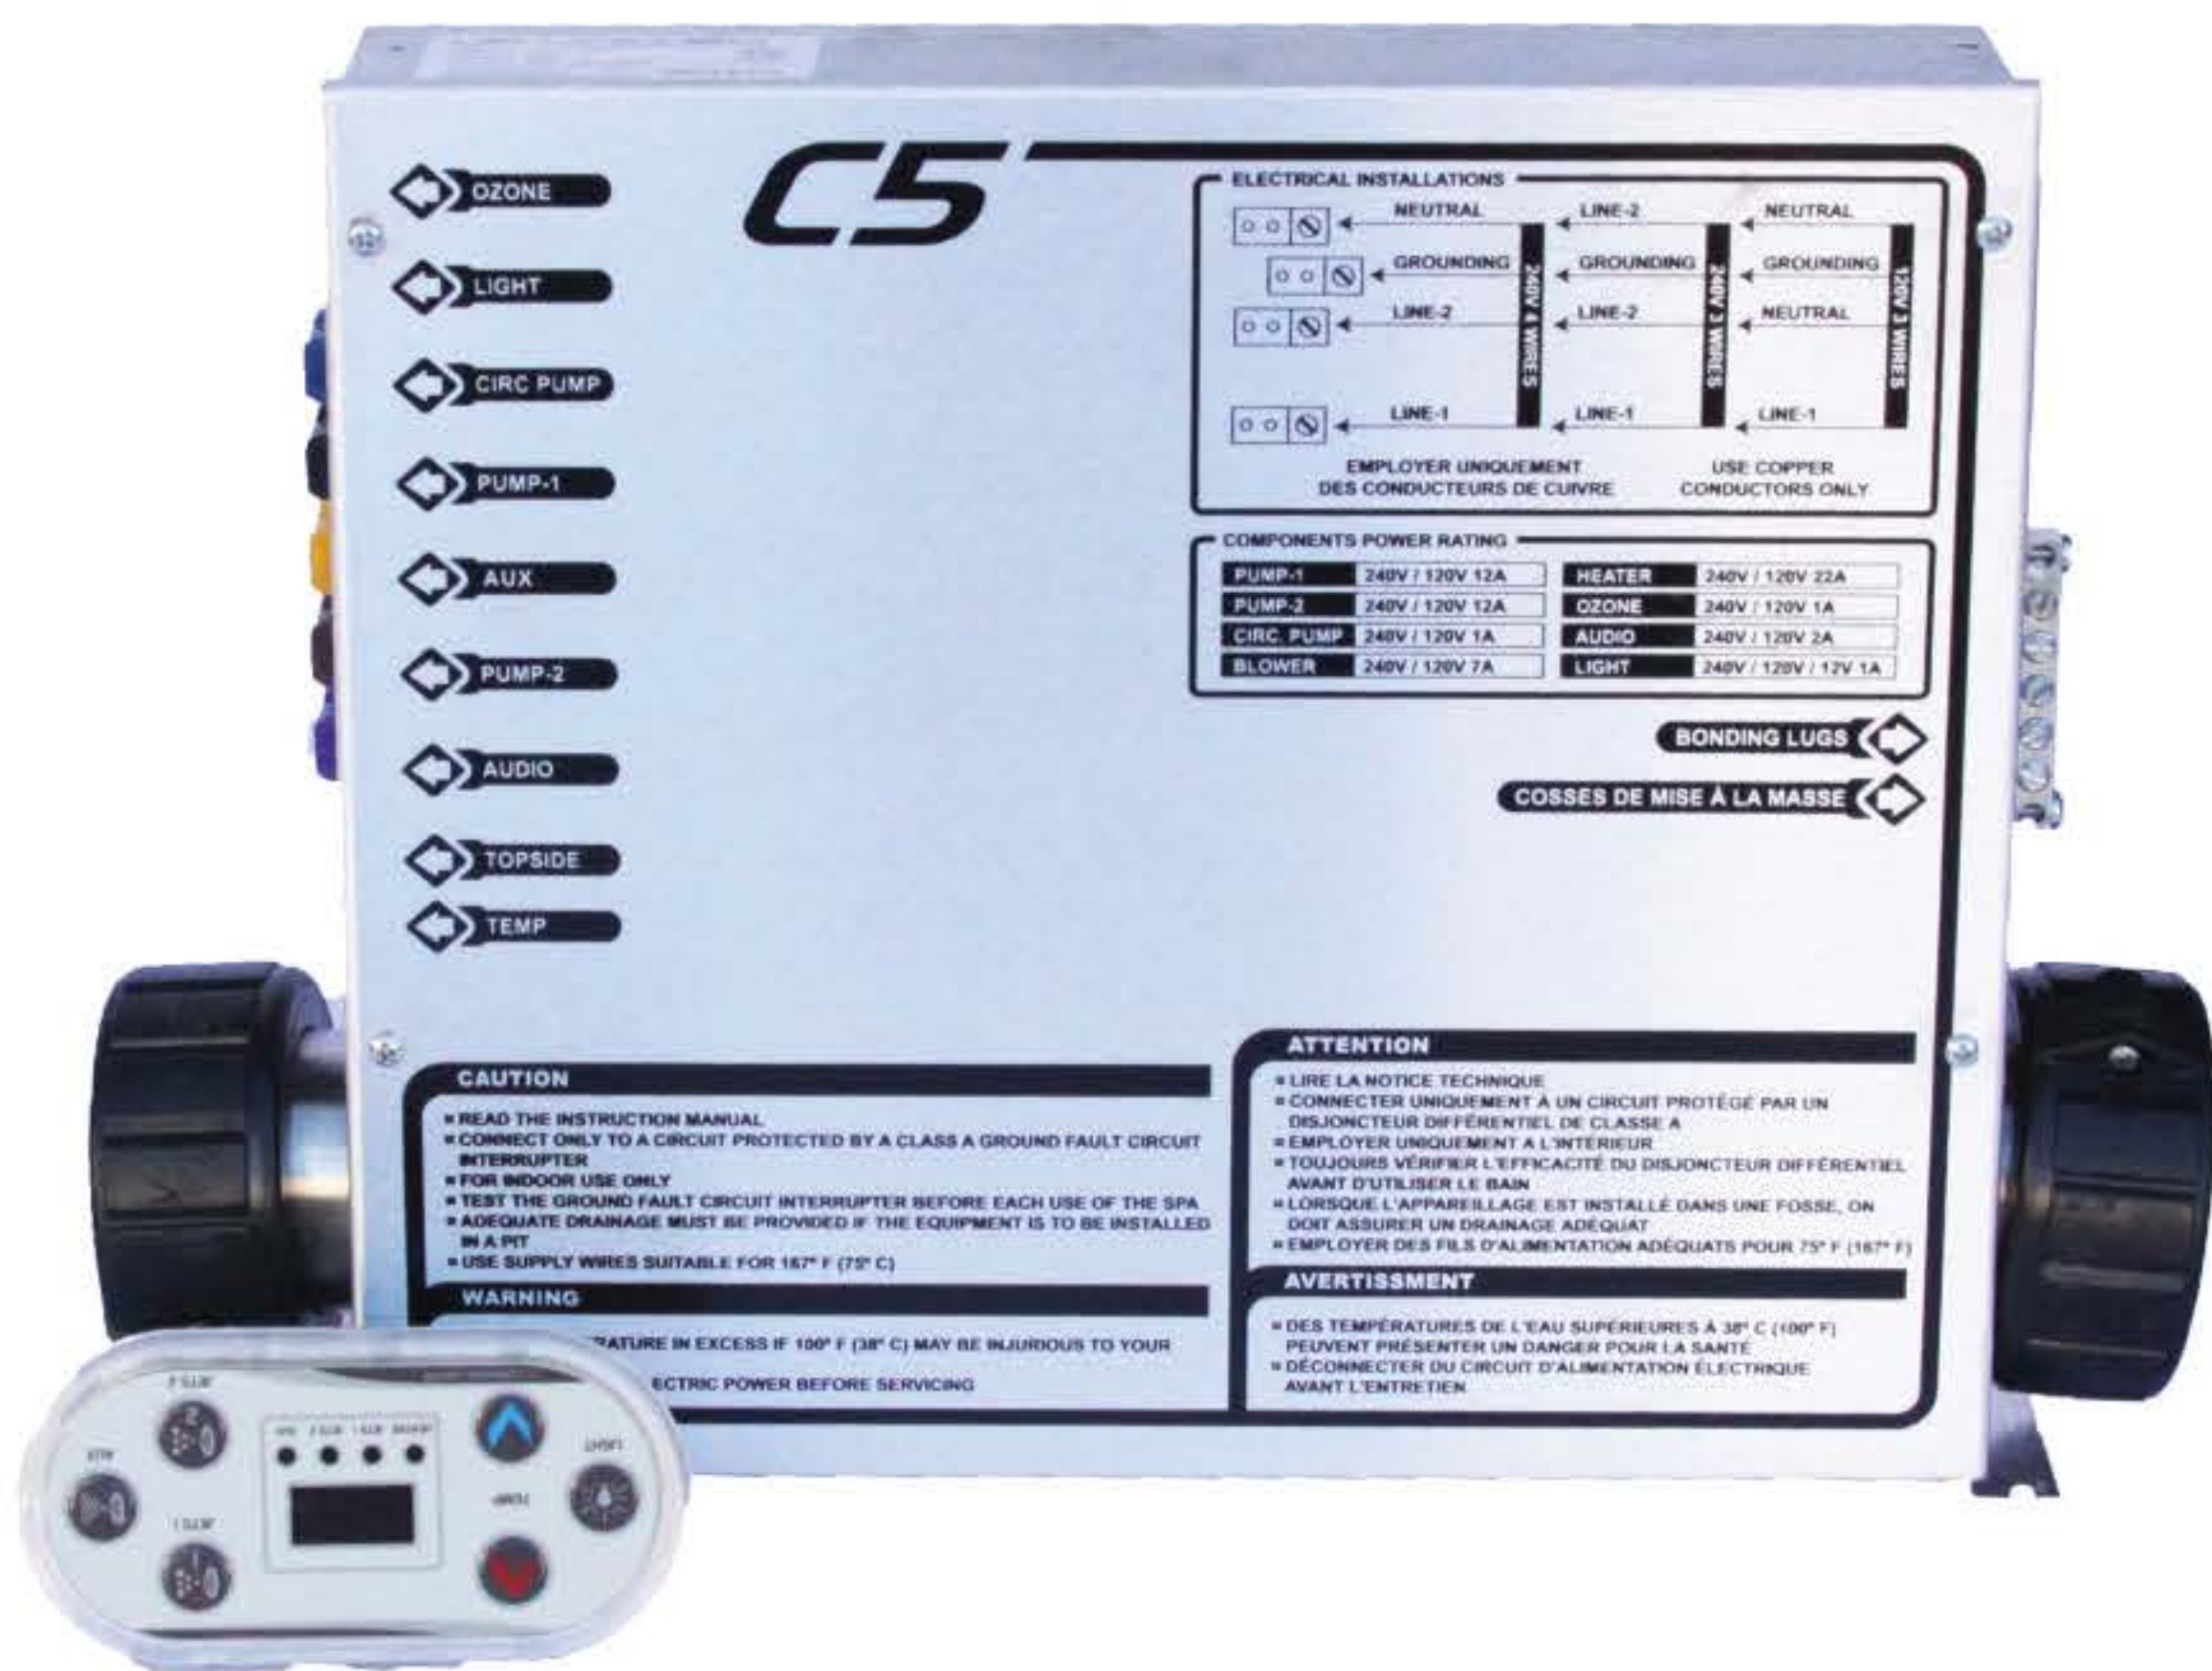

48 FRAME THROUGH-BOLT

2 SPEED SPA MOTOR FEATURES

- Energy efficient motor
- 230V only
- 48 Frame through-bolt design
- Rubber-sealed ball bearings
- Class F Insulation
- Thermal Overload Protection
- 1 Year Warranty

CONTROL BOXES

C5 control boxes with the new B8 board now ship with our new dual-voltage transformers. The days of swapping out transformers to switch between 240V and 120V power hook-up are over! With these new transformers, and the addition of two additional 2-wire receptacles to the B8 board, incoming power voltage can be switched by moving the transformer's 2-pin power selector plug between the B8's 120V and 240V receptacles.

56Y AND 56J MOTORS

SINGLE AND TWO SPEED 56Y & 56J FRAME MOTOR FEATURES

- 56Y square flange & 56J threaded shaft design
- Automotive Quality Paint
- Double-sealed ball bearings
- Class F Insulation
- Thermal Overload Protection
- 1 Year Warranty
