## STAINLESS STEEL ENERGY ADVANTAGE 1.5 HP POOL PUMP

\*Salt water duty seal included with pump

## LEESON WASHGUARD

built with all stainless steel external components to prevent corrosion and well-sealed against moisture and condensation to protect internal components. LEESON WASHGUARD motors deliver something most motors can't - the confidence to know your applications will be up and running no matter what you throw at them. Whether you need a motor that handles an occasional splash, or a solution that handles continuous washdown 24/7.

Stainless steel is 100 percent recyclable. In today's environmentally conscious world, these benefits make stainless steel a welcome choice for eco-friendly construction projects.
